

Subject: Save the date – **Simultaneous National Scientific Advice (SNSA) information and training webinar**

Date of meeting: **19th April 2024**

Location: Live broadcast

Time (CEST): 10:00-12:30

Dear colleagues,

We are pleased to inform you that the EU Innovation Network is organising in conjunction with ACT EU an information and training webinar on Simultaneous National Scientific Advice (SNSA) to be held on **19th April 2024**.

The **scope/objectives** of the **webinar** are to:

- Provide information on the ongoing SNSA pilot including the rationale behind this initiative and experience to date.
- Outline the circumstances in which SNSA could be used, including some case studies.
- Summarise the optimised procedure for phase 2 of the SNSA pilot.
- Highlight the benefits for applicants.
- Answer questions and invite feedback from stakeholders in relation to SNSA.

We anticipate a broad representation of stakeholders who may benefit from using SNSA including pharmaceutical companies, SMEs, and non-commercial or academic researchers and developers, funding bodies, etc. To enable wide participation the webinar will be broadcast on the EMA's website and a recording made public.

We look forward to your participation in this event – **please "save the date" in your agenda!**

An outline of the agenda will be available on the event page later and a link to join the live broadcast is available on the event page.

We would be grateful if you could disseminate this information **within your network**.
